## **Iowa White Pages Database Download**

This file contains information on residential phone number. Please note that the White Pages database may NOT be imported into the MACRO database. IMPORTANT NOTE: The data file was created using a MACRO file and the MACRO file may not be used for importing to or exporting from the Macromark database. Data Source: The source of this data is the Florida White Pages database and may not be completely accurate as no quality control is done on the information before it is made available to the public. Most data in this file is provided by customers and licensed to us by Directories, including names and street addresses. Businesses with which we have a co-marketing agreement may have their phone number listed in our data. The complete database for Florida is too large to copy to your computer. Please request a CD-ROM or download of a subset of records. When viewing records in "detail view," go to the "Phone Number" section to view information for that number. Trim Data File: To help you minimize data you do not want, we have provided a tool to remove records from the file. NOTE: Use of this tool is not recommended as you are taking a significant chance to either lose records or have incomplete records. A record will be removed if it contains any of the following elements: 1) Numbers that look like the following: \*-\*-\* 2) Numbers that have spaces or are otherwise unusable 3) Numbers in the areas covered by the following codeblocks: \*99999 This includes all phones in the area covered by the following states: 1) USA 2) AL 3) AR 4) AZ 5) CA 6) CO 7) CT 8) DE 9) FL 10) GA 11) HI 12) IA 13) ID 14) IL 15) IN 16) KS 17) KY 18) LA 19) MA 20) MD 21) ME 22) MI 23) MN 24) MO 25) MS 26) MT 27) NC 28) ND 29) NE 30) NH 31) NJ 32) NM 33) NV 34) NY 35) OH 36) OK 37) OR 38) PA 39) RI 40) SC 41) SD 42) TN 43) TX 44) UT 81e310abbf

1. Field of the Invention The present invention relates to a moving image coding apparatus and method, a moving image decoding apparatus and method, a moving image coding method and a moving image decoding method, and a computer-readable recording medium in which a program for the moving image coding apparatus and method, the moving image decoding apparatus and method, and the moving image coding method and method are recorded.

2. Description of the Related Art In recent years, a variety of moving images are encoded and stored in a recording medium and a transmission channel and the like for the moving images is proposed. Especially, when storing moving images in a recording medium and transmitting them, it is proposed to make, from a plurality of input images as input images of a moving image, a still image, which is less affected by noise, by carrying out a coding process of the moving image for each frame thereof and a coding process of the still image. In the following, a case where input images of a moving image is an image obtained by capturing an actual object by a camera is taken as an example, and a coding process of a still image is carried out for each frame of the moving image. FIG. 1A is a diagram schematically illustrating an example of a moving image obtained by shooting a three-dimensional object. FIG. 1B is a diagram sche
