Download VideoSiteManager Portable [url= to the AIA for an affordable certified program. I learned on the job and find I am gaining industry knowledge and skills that I can apply to my new clients. I like the buddy system of online classes and the ability to revisit the class that I missed. Very interesting class, and the learning curve was relatively gentle, since it was hands on. I can definitely see how this is a valuable skill in any architect's toolkit. We had an excellent online instructor. It was good to be able to work at your own pace and see the project get finished. This way the project went smoothly without any time, cost or stress. Thank you AIA and JV. This was the first time I have taken a class with the AIA. It was an excellent way to learn about my trade. The course is designed for both the novice as well as the experienced. All questions were answered promptly and politely. The teacher was patient and thorough. This class helped me. Thanks. The webinar was probably the best part of this course because it felt like we were working with an actual architect, so I could ask questions when I had them. The other 3 parts were pretty good, but not as interactive
