While we worked as game developers for many years, we have decided to make a game full of heart and originality. • We would like to create an action RPG that takes a refreshing and interesting look at fantasy. • We're working on a story with great entertainment value that you can enjoy for a long time. • The fantasy action RPG is created by the creators of Okami, Dragon Quest, and the Tales series. **FALCON GLANCER** The ultimate goal of the Falcata party is to purify the world and defeat the enemy. • **Kingdom of the Falcata** The majestic kingdom of Falcata lies deep in the lands Between. Doom led by the god Voll, who defied fate, cursed the lands Between and threw them into darkness. The god Voll sealed himself in Mount Voll and banished the people to the kingdom. However, some of the people of Voll still remain in the shadows. The Falcata party prepared to fight the enemy using the god Voll's full power. **TRINE (The Falcata Hero)** As a hero of Falcata, the legendary war hero, Trine is led by destiny to a location known as the Altar of Destiny. He is the thirteenth Falcata hero. He is lonely as a hero. They have no luck. • When the Falcata party went to investigate the rumors about a nearby Alter, Trine lost his opportunity to meet the strong god Voll and gain the support of the Falcata party. As Trine bared his heart, he was taken to a shadowy world and discovered his true identity. He is Trine. **VIRAGA (The Folk Hero)** She is a folk hero of Falcata. The fox-knight, Rilla, once trained under her. She was tricked by the new god Voll and controlled by him to appear to have lost her land of the Falcata party as a result. The people of the Falcata party have been deceived by her into thinking that she is a traitor. She has gradually been rising in the ranks of Falcata to bring it glory. • As the folk hero, Viraga had an idealist view of justice in the lands Between. And the world that she knew, she believed that it was a bad world, and felt a desire to change it.

## **The Lands Between: Birth of a Myth at the Dawn of Time!**

The evolution and proliferation of a collision caused the ancient kingdom known as Eredin to cease to exist and possibly be destroyed. Some of the population were left dying and engulfed in a remnant of Eredin. These people became absorbed into a vast kingdom of Chaos with the help of a powerful demonic force. They forged individual identities while being submerged in the chaos and prepared to break away from the indecisive Chaos. The formation of this new civilisation was believed to be inevitable at the beginning of time and had been long prepared!

At this time, a mist of Chaos infiltrated the legend of Eredin. The faith and belief of humanity began to falter, and the notion that the formation of a new civilisation was inevitable was slowly forgotten. The chaos gradually absorbed all that still remained of Eredin's kingdom, and while the old Eredin and Chaos began fading from people's memories, the magic of the chaotic mists fomented an illusion of that world and created a legend. In this world of sorrow and despair, abnormal creatures called abominations were born, inheritors of the power of Chaos.
